**FOR IMMEDIATE RELEASE**

## SIG SAUER® P232®'s Enhanced Dependability

**EXETER, NH** – [SIG SAUER, Inc.](http://www.sigsauer.com), the leading manufacturer of commercial, law enforcement, and military firearms, is known worldwide for concealable pistols, primarily due to the reputation of the dependable model P232. Most recently the SIG SAUER P232 has been re-engineered to incorporate the latest in firearms manufacturing technology and cosmetic improvements. The latest enhancements to the P232 include a new slide design that further reduces the chance for “slide-bite”, and for the first time in the P232 history - removable sights are standard. Additionally, you have the choice of standard contrast sights, or SIGLITE® Night Sights. Both are adjustable for windage, and elevation changes can be achieved through changing out the front sight. The SIG SAUER P232, the ideal concealed carry pistol that has been delivering accuracy, balance, reliability, and safety, is truly a modern compact pistol. The SIG SAUER P232 is available in a natural stainless model, a black Nitron® model and a Two-Tone with a black alloy frame and natural stainless slide. For more information on the classic SIG SAUER P232, log on to [www.sigsauer.com](http://www.sigsauer.com).
