**FOR IMMEDIATE RELEASE**

**THE P556™ PISTOL FROM SIG SAUER®**  
*Legendary SIG556 Performance Now in Pistol Size*

EXETER, NH – [SIG SAUER, Inc.](#), the leading manufacturer of commercial, law enforcement, and military firearms, has introduced the [P556](#), a pistol version of the [SIG556](#) rifle. The [P556](#) Pistol, in 5.56 x 45mm NATO, is a semi-automatic pistol with the same gas piston operating rod system and two-position adjustable gas valve that make all SIG556 rifles reliable performers.

The [P556](#) pistol features an ergonomic pistol grip, rotating bolt, and is designed to accept standard AR15/M16 style magazines. Available in two styles, one uses an alloy quad-rail forearm for attaching lights, lasers, and other optics; while the second model utilizes a Swiss-type polymer hand guard for the clean retro look of the SG 550™; the rifle that created the worldwide demand for precision Swiss arms.

The P556 is outfitted with the [SIG SAUER STS-081 Mini Red Dot Sight](#) and is shipped in a Tactical Soft Case with one 30-round magazine. The P556 SWAT, which includes an alloy quad-rail, has an MSRP of \$2,099.00. The Standard P556 model ships with a Swiss-type polymer hand guard and has an MSRP of \$1,875.00.
