FOR IMMEDIATE RELEASE

SIG SAUER®
INTRODUCES THE STS-081 MINI RED DOT SIGHT
FAST TARGET ACQUISITION FOR YOUR FIREARM

SUMMARY – SIG SAUER, manufacturer of firearms for the military, law enforcement, and commercial markets, introduces the STS-081 Mini Red Dot Sight optic accessory as a compliment for their handgun and rifle lines. Featuring a parallax free 1X red dot with a 4 MOA reticle and coated lens, the STS-081 provides 11 different daytime settings. The SIG STS-081 Mini Red Dot Sight allows the user to achieve quick target acquisition shot after shot. MSRP is \$429.00. www.sigsauer.com

EXETER, NH – SIG SAUER, the leading manufacturer of commercial, law enforcement, and military firearms, introduces their New STS-081 Mini Red Dot Sight.

State-of-the-art performance combined with compact size make SIG SAUER's New STS-081 Mini Red Dot Sight one of the most unique optic accessories available. A truly versatile and lightweight solution for rifles or handguns, the STS-081's advanced design, coupled with its robust construction, provides optimum performance and ensures quick target acquisition under the most extreme conditions.

Distinguishing features of the STS-081 are a parallax free 1X red dot with a 4 MOA reticle, and coated glass lens. All components are encased in a high strength extruded aluminum body, complete with anodized coating. Mounting is achieved on M1913/Weaver accessory rails. Variable red dot brightness is achieved through eleven different daytime settings, which provide a highly visible aiming solution through a full range of lighting conditions. Power is supplied through one 3V CR2032 lithium battery lasting an impressive 8000 hours of continuous operation. With an overall length of less than 2.5" and weighing only 3.0 oz; STS-081 Mini Red Dot Sight becomes an integral part of your firearm.
